

Epoxy Tag Series

Model: Epoxy Tag Series_Micro Size

1. Introduction

Micro UHF RFID is just what the current market lacks for miniature RFID applications. This type of RFID is suitable for installation on non-metallic micro-sized objects. The curved surface enhances its ability to withstand side impacts, reducing the chances of tag damage.

2. Available IC

Ucode 8, others upon request

3. Data Sheet

Item	Specification
Operating Frequency	860MHz-960MHz
Material	Glass Fiber + Epoxy
Storage Temperature	-30°C to +100°C
Operating Temperature	-30°C to +85°C
International Protection	IP67
Operating Distance	Depends on reader design
Dimension	8(D) mm
Options	Laser Marking/ Inkjet Printing
