Logistic Tag-22mm

Model: Logistic Tag-22mm

1. Introduction

This logistic tag product is specifically designed for logistics tracking systems, as its shape is suitable for metal surfaces or cylindrical objects such as barrels. If it needs to be applied in harsh environments, it can be paired with an engineering plastic casing. It also allows for easy implementation of various solutions.

2. Available IC

EM4200, T5577, Mifare series, I.CODE series, Ntag series, LEGIC, Hitag series, DESFire

3. Data Sheet

Item	Specification
Operating Frequency	125 KHz & 13.56 MHz
Material	PPS + Epoxy
Storage Temperature	-30ºC to +125ºC
Operating Temperature	-30ºC to +85ºC
International Protection	IP67
Operating Distance	Depends on reader design
Dimension	22(D) x 3.4(T) mm
Options
