

Mount-on-Metal Series

Model: MT Series_Micro Size

1. Introduction

The miniature mount on metal RFID system provides a comprehensive selection of tracking solutions for a diverse range of hand tools. Its dual focus on both reading distance and size effectively addresses the existing market gap in meeting the specific demands for miniaturized RFID technology.

2. Available IC

Impinj R6-P, others upon request

3. Data Sheet

Item	Specification
Operating Frequency	860MHz-960MHz
Material	Glass Fiber + Epoxy
Storage Temperature	-30°C to +100°C
Operating Temperature	-30°C to +85°C
International Protection	IP67
Operating Distance	Depends on reader design
Dimension	5(D) x 3(T) mm
Options	Laser Marking/ Inkjet Printing
