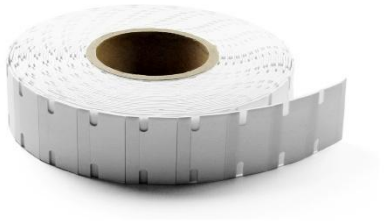
RFID Label

Model: RFID Label (Off/On Metal)



1. Introduction

RFID labels feature a printable white surface for customized printing of barcodes, QR codes, logos, and variable information. Available in on-metal or off-metal versions, they deliver reliable performance across various applications. Ideal for logistics, asset management, manufacturing, and industrial automation, they enhance identification, traceability, and operational efficiency.

2. Available IC

Depends on requirement.

3. Data Sheet

Item	Specification
Radio Protocol	ISO 15693, 14443, EPC Class 1 Gen2
Operating Frequency	13.56 MHz or 860MHz-960MHz
Read Range-Handheld Reader (UHF)	Depends on requirement
Read Range-Fixed Reader (UHF)	Depends on requirement
Material	PET, paper
Storage Temperature	-25°C to +70°C
Operating Temperature	-25°C to +70°C
International Protection	IP67
Dimension (mm)	Depends on requirement
Polarization	Linear
Option	

* The chip data retention is up to 20 years, based on chip operating under general environment conditions.
